Chris,
Good morning.
C the email chain below. Still waiting on a response from ACV.
I think we r close.

I've been reading the regs and uts part 268 is for landfilling restrictions. I'm speculating here but the incinerator would manage their ash per uts regs prior to landfilling?

Sent from my Verizon, Samsung Galaxy smartphone

Are they listed on the profile forms for the waste streams that they are required for?

UHCs are applicable if over the UTS levels. They need to be listed on land disposal restriction form and should be listed on the profile too

Nonresponsive based on revised scope

Good morning. Yes it makes sense for land disposal restriction on the RCRA Non-Haz waste.

The other waste streams that are going for incineration, UHC's are not applicable?

Thanks

CAUTION This email originates from a source outside the company. Please use caution when opening attachments, clicking on links, or following the senders request.
For UHCs needing to be listed on the profile or the land disposal restriction form, the waste has to be RCRA haz first. Since WD02, WT02 and LP 01 are Non RCRA waste, UHCs won't apply. Does this make sense?

WD02, WT02 and LP 01 Are going to Advanced disposal for landfilling

Nonresponsive based on revised scope

Our EPA OSC has a UHC question. UHC's are applicable for landfilling waste, it appears that all the RCRA hazardous waste is going for incineration or fuel blending where the UHC would NOT be applicable? The RCRA non-hazardous waste (WD02, WT02 & LP01) is going to Advanced Disposal for solidification and landfilling?

If you could help clear up the UHC applicability question that would be great.
Thanks

Subject: Shiloh Church--profile questions

HI Nonresponsive based on revised scope

Attached are my updated unsigned profiles.

Section G--UHC's

Per profile: Section G--Does this waste contain underlying hazardous constituents as defined in 40 CFR 268(2)(I) at concentrations exceeding the UTS treatment standards? If yes, list in Section

Question--Do you need to complete this? Do you list the UHC's someplace?

Thank you,

Nonresponsive based on revised scope
